

Manual Wheelchairs

Future Mobility Healthcare manufactures and markets products that increase the freedom and safety of mobility challenged individuals. Renown for quality and service, we bring innovation to all of our products for the home healthcare market.

Orion // is the most innovative and affordable tilt-in-space wheelchair on the market today. Developed for those individuals requiring adjustability to redistribute their body weight for optimal positioning purposes, the Orion // assists in allowing the user to function independently and to become more involved in their lifestyles.

With a true 45 degrees of tilt, optional 30 degrees of recline, standard on-chair adjustable seating system, incredible range of seat-to-floor heights and creative streamlined design.

The Orion //...dynamic, progressive, sure to become the most popular tilt chair under the stars!

Future M  bility Healthcare
